# Slideshow Clues (I)

Updated: 21July03

- Move the entire *small\_wind\_ppt2000x* directory as a unit.
  - Ensures that the hyperlinks will work
- Open the file named *SMALL WIND MAIN MENU*.
  - Hit the “F5” key to get into slideshow mode.
- Move forward and backward in the *Small Wind Main Menu* as you choose, slides I to V.
  - Take care to not advance past the closing photo slide... that ends the slide show!

# Slideshow Clues (II)

Updated: 21 July 03

- Icons on the Menu slides are hyperlinks
  - Access to all of the other PowerPoint
- Icons in the other files are not hyperlinks unless:
  - Labeled with a video action button: 
- Text can also be a hyperlink:
  - [Sample hyperlink](#)
- In the Wind Resources files, states colored blue are links to an individual wind map.

# Slideshow Clues (III)

Updated: 21July03

- If there is an *Action Button* on the bottom of a slide, use it! Don't just advance to the next slide.
- Use *Esc* to return to the *SMALL WIND MAIN MENU* at any time.
- To get to a specific slide within a file:
  - Right click / *Go* / *By title* / Select desired slide

# Slideshow Clues (IV)

Updated: 21July03

- Windows Media Player may require some setup:
  - *Compact View*
  - *200% Zoom*
  - Centered on the screen
- To use the video clips, you will need speakers:
  - Speakers in your laptop
  - Speakers in the LCD projector
  - Stand-alone speakers

# Slideshow Clues (V)

Updated: 21July03

- Within PowerPoint, turn off the “*End with black slide*” option:
  - *Tools / Options / View / End with black slide*
